DETAILED ACTION

ALLOWABLE SUBJECT MATTER:

1. Claims 7-13 and 22-23 are allowed.

2. The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest a method of determining the amount of gas in an incompressible liquid by subjecting the mixture to three pairs of pressure/volume measurements and converting to standard temperature and pressure conditions.

OBJECTIONS/REJECTIONS:

- 3. Claim 16-21 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 16 and 17 refer to mixing solids and liquids but the base claim 7 refers to mixing gas with liquid.
- 4. Claims 16-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2856

COMMENTS:

Claims 16 and 17 fail to further limit the subject matter of a previous claim. Claims 16 and 17 refer to mixing solids and liquids but the base claim 7 refers to mixing gas with liquid.

The square brackets on P 19, 23 and 24 can be mistaken for editing directions.

Claims 16-21 come very close to double patenting against US PAT 6,496,781.

The equation at the top of P 5, appears to have the wrong units.

INQUIRIES:

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jay L Politzer whose telephone number is 305-4930. The examiner can normally be reached on 1.
